

# THANKS FOR PURCHASING ROLL A PIZZA!

## Directions:

Print and laminate as many copies as you will need. Each student will need page 2. I printed several copies of page 3 and 4, laminated them and the students share these pieces.

After completing their therapy task, each student takes a turn rolling a die. They add a topping to their pizza based on the number they rolled.

This game can be used as a reinforcer, roll the die and add a topping to the pizza until therapy time is completed.

This can also be made into a competitive game. The player with the most complete sets of toppings, one of each, is the winner.
