

Bowling Study Guide

- The highest score in bowling is 300.
- A spare (/) = 10 + the next roll + the previous frame
- A strike (X) = 10 + the next 2 rolls + the previous frame
- There are 10 pins in a rack.
- The maximum amount of strikes in a game is 12.
- A strike (X) occurs when all the pins are knocked down on the first roll.
- A spare (/) occurs when all the pins are knocked down on the second roll.
- If you step over the foul line, you get no credit for the pins knocked down, resulting in a foul.
