

Attention: All 8th Grade Girls
Introduce a Girl to Science and Engineering Day

ExxonMobil Research & Engineering Company is hosting a workshop at Readington Middle School for 25 of our 8th grade female students. Students will be exposed to different types of science and engineering careers as they participate in a series of fun and engaging activities relating to different scientific concepts. This workshop will take place on **Tuesday, March 17th from 8-10 am**.

- Interested participants must return the signed permission slip below to their science teacher by **Monday, March 2nd**.
- If more than 25 girls are interested, participants will be chosen by lottery and you will be notified no later than **Friday, March 6th** if we are able to accommodate you or not.
- We will maintain a waiting list for any late entries or for cancellations. We kindly request that you notify your science teachers of any cancellations immediately so we can fill every spot.

This is an exciting opportunity for our female students to learn from actual engineers and scientists working at ExxonMobil.

Thank you,

Ms. Alber balber@readington.k12.nj.us

Mr. Sanders ksanders@readington.k12.nj.us

Please fill out and return to child's science teacher by **March 2, 2020**.

My child, _____, will be given permission to participate in ExxonMobil's Introduce a Girl to Science and Engineering Day from 8:00a.m. to 10:00 a.m. on Tuesday, March 17th. *Students will be responsible for making up work that will be missed during this time.*

- ☐ I will allow my child to be photographed and their name to be used for media release related to this event.
- ☐ I **will NOT** allow my child to be photographed and their name to be used for media related to this event.

Parent/Guardian name (printed): _____

Parent/Guardian Signature: _____
