

## Day 4

### Language Arts - Read! Read! Read!

Allow your child to choose a favorite book. Either read it to her/him or have her/him read the book. Have her/him draw and label a picture about their favorite book. He/she can also write a sentence about why this is his/her favorite book. Have your child write the title of the book on their picture. Talk to your child about why this is his/her favorite book.

### Math - Same or Different

Fold a piece of paper into fourths. Have your child draw items in each square that are either the same or different. Have him/her share her drawing with a family member. Let your child talk about her/his drawings using the words "same and different".

### Science - Moving Molecules

Get two glasses. Fill one glass with cold water and one with hot. Have your child predict what will happen when food coloring is added simultaneously to each glass. Do the molecules move around faster in the hot water?

### Social Studies - My Family

Draw a picture of your family. Try to write the names of the people in your family. How many people are in your family? Write the number.
