

## Day 9

### Language Arts - Main Idea

Remind your child that every story has a main idea. The main idea is what the story is mostly about. Read a story to your child or use the Tumblebooks website, <http://www.nypl.org/>. First click on "Books and Materials" at the top, next click on Tumblebooks, then click on "Storybooks", and now choose a story your child would like to listen to. After your child has heard the story discuss with her/him what they think the main idea of this story was. He/she can draw a picture and write a sentence about the main idea of this story.

### Math - Shape Picture

Using different shapes draw a picture. Try to include as many shapes as you can.

### Science - Using Your Senses

Think of a holiday you celebrate. Tell someone how you use your senses during that holiday. What might you see, smell, hear, taste or touch?

## Social Studies - Town Bingo

Print out the "Town Bingo" document. Discuss each square with your child and have her/him tell you what the building or place is. Remind your child that there are several places to live, places to buy things, and places to get help. Use pennies for markers. Call out a kind of place, and your child will find one of those places and place a penny on it. If you say, *a place to get help*, your child could cover the police station, the fire station, or the school with a penny. Only cover one at a time. To win, your child needs to cover four pictures in a row. Bingo!!

Name \_\_\_\_\_

# Town Bingo

Objective: Identify places in a town.
