Whitehouse School Is Set to Launch Another Year that will be Out of This World!

Countdown: T-Minus 10 Days Until Blast Off!

"Houston, Tranquility Base here, The Eagle has landed...
That's one small step for man, one giant leap for mankind!"
-Neil Armstrong from Apollo 11 Mission

August 26, 2019

Dear Students,

Wow! I am over the moon at the thought of what we will accomplish this year! You may have heard the news that on July 20, 1969, which was 50 years ago, the United States sent astronauts up into space and we landed on the moon! It was a very important day in history! This year, we will celebrate this famous lunar landing by studying it and many different aspects of outer space, as an entire school during our annual thematic unit! In the meantime, here are some trivia questions for you to explore:

- Kindergartners  Who wears a special suit and travels into space?
- First Graders   Is the moon a star, a planet, or neither?
- Second Graders  How is a space shuttle similar to both a rocket, and an airplane?
- Third Graders   What is the International Space Station?

Enjoy the remaining days of your summer vacation! I can't wait to see you!

Love you to the moon and back again,
Dr. DeRosa

P.S. Remember to be good, keep reading, and help out around the house!
