Computer Programming with Ozobot, Makey Makey and SCRATCH

Ages 6-12

In this exciting program, robotics and coding become elementary! Have fun expanding your horizons with the help of Ozobot – the tiny smart robot. There is no end to the possibilities, as you create a different landscape of adventures, games and coding with Ozobot. Imagine, a learning toy that opens the doors of computer science, STEM education, robotics and coding with simple color-coded commands and “Ozoblocky,” a coding language powered by Google’s Blockly program. Ozobot Bit’s ability to learn your programs, and then play them back is a big game changer to how young minds play and learn. OzoBlockly – a block-based visual editor – offers five step up modes from Novice to Master to appeal to young kids and even to challenge the seasoned programmer.

Students use markers, tablets and laptops for coding. Please bring a **peanut free** snack and a drink.

Chess Yes! - Advanced Beginners Training

Ages 6-14

You know the rules of chess; **now it's time to learn how to beat your parents, friends, and schoolmates at the game!** Students should have either taken a beginner's course or have played sufficiently to have some idea of what you are trying to do and how to do it. Course topics include checkmating positions, basic opening ideas and chess tactics. Short lectures, worksheets, chess puzzles, and class chess play are used to help you become a better player. You also learn about the active environment of kid's tournament chess, as well as the numerous resources that are available to help you learn and play the game. Please bring a **peanut free** snack and a drink.

Instructor: Coach Marty Sobin, Jersey Chess

Introduction to Entrepreneurship

Ages 13-17

The importance of entrepreneurship education and practice cannot be ignored as a vehicle to prepare future business and industry leaders for the opportunities in the 21st century. This course teaches students how to begin thinking more independently about starting and owning the business they work for, rather than being at the mercy of an employer, who will never pay them what their worth! Find a need and fill it.... be an entrepreneur. Please bring a **peanut free** lunch, snack and a drink.

FINE & PERFORMING ARTS

Acting for the Camera

Ages 8-15

This class is for the aspiring young 'stars' in your household. It is here they learn real auditioning skills by working with scripts for commercials and film readings. Your child learn how to characterize and follow direction, block for camera and read with their 'co-stars'. Improvisation and ad-libbing (off the script) are taught as a basis of personalizing characters and trusting instincts. One of the quickest ways to gain experience in this industry is by doing 'extra' work otherwise known as a "Background Artists." Included in this class is a list of legitimate talent agencies and terminology of the business. This class is designed by casting director, Kathy Wickline, CSA (www.wicklinecasting.com) who holds over 10,000 casting credits in film, commercials and TV. All original footage will be sent to a professional editor for creation of a USB. Parents have the option to order for purchase a professionally edited USB as a keepsake. USB Rate \$37.99 includes shipping and handling. Please bring a **peanut free** lunch, snack, and drink.

Music and Voice Production

Ages 12-17

Does your child dream of what it's like to be behind the microphone, performing like their favorite singer? Well, here's their chance! This one-of-a-kind class designed by a GRAMMY award winning music producer and two-time Parent's Choice Gold winner offers students an actual recording studio experience by introducing them to the amazing world of the music industry. Students have a blast developing their skills in Songwriting, Music Recording, Voice-overs and Audio Equipment Operation. Students can work interchangeably as talent and/or crew, behind the scenes or behind the microphone. They'll learn vocal warm up routines, perform voice-overs and TV/radio announcements, have a blast singing karaoke to their favorite songs, and the best part is they have the unique opportunity to create their very own song from start to finish and record it live! It isn't often that a child can say they had a hand in fully producing a song from beginning to end and have a copy of that song to share with friends and family for years to come. Students receive one professionally edited audio CD that contains all of their camp recordings for the week. This CD is included in the class fee. Please bring a **peanut free** lunch, snack and a drink.

POP Star Singing

Ages 6-10

If your child enjoys singing and performing, then this is the class for your up-and-coming superstar! Not only does your child have a blast singing and performing their favorite karaoke songs, but we also provide silly dress ups and props so your child can perform and look like their favorite pop star. On the final day of class, all performances are video-recorded and made available online for you to view and enjoy. While having fun, students also learn basic vocal warm-ups and performance tips that help build their confidence. Students also play singing games similar to lip-sync competition and Name That Tune. This is a super-fun class! Some dress ups and props are provided, however, students are welcome to bring their own favorite costumes as well! Please bring a **peanut free** snack and a drink.

Diggin' For Dinos, Rocking Rocks & Crystal Creations

Ages 6-10

Young scientists will discover the exciting science of archaeology and paleontology as they excavate and assemble complete skeletal replicas from simulated "fossilized" rock. Dig for T-Rex, Triceratops, Stegosaurus, Velociraptors, Brachiosaurus, and more! Make fossilized plaster replicas of dinosaur teeth, claws, trilobites, and ancient sea creatures. Sort, classify, and take home a variety of fossilized shark teeth. Unearth some fascinating facts about rocks, minerals, and crystals. Break open geodes and discover crystals inside. Take home a unique mini-collection of rocks and minerals that you will learn about in the program, a rock and mineral book, unearthed treasures, fossilized shark teeth, and more. Please bring a **peanut free** snack and a drink.

Amusement Park Physics

Ages 7-12

Have you ever wondered how they design and build those crazy rollercoasters and other amusement park rides? Join us and learn about friction, gravity, momentum, velocity, and other effects of force and motion as they relate to theme park rides. We'll design, construct, and test loop-the-loops, marble catchers, ball machines, Ferris wheels, swinging amusement rides, and more. This is the way to experiment and build as you learn physics concepts in a fun and activity-based atmosphere! Please bring a **peanut free** snack and a drink.

Instructor: Super Science Programs for Kids Staff
CRN 31350 YS642-01 5 sessions
Mon-Fri July 15-19 9:00am-12:00pm
Course Fee: \$190

Architect & Engineering Challenges

Ages 7-12

Architecture and engineering are the focus of this program. You will work to design and build towers, balsa bridges and a wide array of Lego and K'NEX™ architecture projects. Have fun building famous architectural designs from around the world including Adam Tucker Reed's famous brick structures including the Empire State Building, Imperial Hotel, Whitehouse, Imperial Hotel, Flat Iron Building, Seattle Space Needle, and more. You will also build bridges, towers, and other structures using a variety of materials and learn about structural engineering principles and forces that act on structures. Develop science, technology, engineering and mathematics skills in a fun, hands-on environment. Please bring a **peanut free** snack and a drink.

CRN 31351 YS735-01 5 sessions
Mon-Fri July 15-19 1:00-4:00pm
Course Fee: \$190

Intro. to LEGO EV3 Robotics

Ages 8-12

Have fun building, designing, and programming robots with Lego Mindstorms. Build robot projects and creations that use working sensors and motors. LEGO MINDSTORMS combines the unlimited versatility of the LEGO building system with an intelligent microcomputer brick and intuitive drag-and-drop programming software. No prior robotic or programming experience is necessary for this introductory course. All students will take home a Hexbug robot as part of this program. Please bring a **peanut free** snack and a drink.

Course Fee: \$190

New! Drones & Flying Physics

Ages 8-12

Take to the skies with mini drones, quadcopters, and more! Housing a thrilling, hands-on aerial robotics platform, this camp is the perfect introduction to the world of unmanned aerial vehicles (UAVs). In this class, safety is a priority as students learn to fly in first-person view (FPV), exploring the real-world applications of drones. *In Drones and Flying Physics Camp* students go through Droneology, the online drone education platform, master basic piloting skills, construct an obstacle course to fly through and stage a final race to showcase their cumulative knowledge. Putting critical thinking to the test, the camp also has students brainstorm ways drones could be used for good, sketching out their ideas for new and innovative drones and drone uses. All students will take home their own mini-drone and other flying gadgets made in class.

Lego Star Wars

Ages 6-12

LEGO enthusiasts, have fun building your favorite adventure from a Star Wars galaxy that is far, far away. Star Wars projects will vary depending on availability from LEGO headquarters, but will include age-appropriate new models and the best of some of the older models. Campers will also build a wide assortment of non-Star Wars motorized LEGO Education technic machines and create their own projects that illustrate science concepts. Examples include cranes, remote controlled cars, a player piano, and many more. This is a stimulating enrichment program and not geared as a teacher-driven education class. All campers will take home a LEGO Star Wars project. Please bring a **peanut free** snack and a drink.

Space: Infiniti & Beyond

Ages 7-12

Students explore the mysteries of the solar system and the science behind air & space travel. Children discover not only how astronauts get into space, but also how they live and work once they get there. In this advance space program, we will investigate unique **flying machines, including building balloon-copters, boomerangs and a mini hovercraft as take home projects for the children.** Most importantly, they learn first-hand about the aerodynamic properties of flying machines by **building their own Estes® model rockets as well as an intermediate level Estes™ Skywinder rocket!** Once the rockets are completed, children will blast off on a real Mad Science space mission **Live Rocket Launches! This Class is Out of this World!** Please bring a **peanut free** snack and a drink.

New! NASA – Journey to Outer Space

Ages 7-12

Mad Science has teamed up with NASA in a quest for exploration! We'll take a voyage of discovery into the atmosphere and beyond as we explore planets, moons, and other space phenomena in our solar system. Things will heat up as we examine the sun and other stars and discover the difficulties of space travel! Kids will get a firsthand experience of the challenges of living in space as they try assemble a satellite while training to be an astronaut. Kids will love to build their own Mad Science rocket, and participate in a real "NASA" style rocket launch. Students will have lots of projects to make and many cool NASA take homes, including a gravity assisted launcher, a Shuttle Copter, and more! Mad Science is the **ONLY** organization licensed by NASA to use these activities for Summer Classes. **This Class is Out of this World!** Please bring a **peanut free** snack and a drink.

Brixology

Ages 7-12

This Brixology Class sets the foundation for our next generation of makers! Children learn about different types of engineering and then team up to construct a different engineering-themed project **using MAD SCIENCE EXCLUSIVE LEGO® bricks!** They learn about aerospace engineering while assembling a space station. They explore mechanical engineering as they build boats and vehicles. That's not all – from carnival rides to drawing machines, mechanical animals to truss bridges, your future engineer will build upon their creativity to solve real-world design challenges, while developing their problem-solving and team-building skills. **Let the tinkering and building begin!** Please bring a **peanut free** snack and a drink.

CRAYOLA: World of Design

Ages 7-12

World of Design is a class that takes kids on a journey to the edges of their imagination – and beyond! They learn about Mars, the rainforest, and cities of the future, and get engaged in the creative design process to solve real-world problems. Each day focuses on a specific field of design, and our young architects, illustrators and graphic designers develop their ideas from concept, to sketch, to finished product. They bring their concepts to life by experimenting with Crayola® products, and exploring art techniques like sculpting, storyboarding, mixed media, and collage. Combining art, design, fun active games and inspiring themes from around the world, this class is designed to inspire! Please bring a **peanut free** snack and a drink.

July 29-Aug 2	31375	\$35	31382	\$55
August 5-9	31376	\$35	31383	\$55
August 12-16	31377	\$35	31384	\$55

Before-Care: Participants are supervised on campus from 7:30 – 9:00 am during the weeks and days listed above. RVCC’s experienced staff ensures your child’s safety and prompt check-in at their regularly scheduled programs. You may enroll in any or all of the weeks in which your child is attending a program.

After-Care: At the end of the regular day, children enrolled in this program remain on campus where they participate in a variety of supervised activities until 6:00 pm. You may enroll for any or all of the weeks in which your child is attending a program. Participants are not permitted to remain on campus following the end of their regularly scheduled program day without authorized supervision.

Refunds: No refunds can be provided for cancellation/withdrawal from Before or After Care.

REGISTRATION and PAYMENT must include full payment of tuition and fees along with fully completed Registration Form at the time of registration.

KIDS & TEENS PROGRAMS Summer 2019

LUNCH COVERAGE (Lunch is not included)

Raritan Valley Community College's is pleased to offer Lunch Coverage. Participants are supervised on campus from 12:00-1:00pm during the weeks and days listed below. **You must send your child with a peanut free lunch!** RVCC's experienced staff ensures your child's safety and prompt check-in at their regularly scheduled programs. You may enroll in any or all of the weeks in which your child is attending a program. To take advantage of this service, the child must be enrolled in a morning and afternoon class.

Please note – You DO NOT have to sign up for lunch coverage if you select a FULL DAY CLASS. If you are selecting a Morning and Afternoon class and would like to bridge the two classes, you must register for the appropriate lunch coverage. All lunch coverages are supervised. Lunch coverages do not include the serving of food. They are supervisory only.

Refunds: No refunds can be provided for cancellation/withdrawal from Lunch Coverage.

REGISTRATION and PAYMENT must include full payment of tuition and fees along with fully completed Registration Form at the time of registration.

KIDS & TEENS PROGRAMS Summer 2019

REGISTRATION INFORMATION *Register Early! Classes are cancelled for under enrollment several days in advance. We recommend that you register at least ONE week in advance of the course start date. Many of our classes have limited enrollment and fill quickly. Sign up early to insure a place in the course of your choice.*

Registration includes full payment along with fully completed Registration Form.

IN-PERSON

Our office is located on the first floor of Somerset Hall, Room S147. Register Monday through Friday from 8:30 am to 4:00 pm.

ON-LINE REGISTRATION

www.raritanval.edu/youth

MAIL

Complete the registration form and mail it with a check or money order made payable to RVC College to:

RVCC – Kids & Teens Programs
P.O. Box 3300, Somerville, NJ 08876

Youth registrations cannot be done by phone.

View our courses: www.raritanval.edu/youth

Phone: 908-526-1200, Ext. 8404 E-mail: youth@raritanval.edu

COURSE CONFIRMATION & LOCATION

Approximately 5 days before the start of your course, a confirmation notice is emailed containing all necessary information. If you have not received the confirmation regarding your course within 2 business days of the course starting date, please call 908-526-1200, Ext. 8404. There are no refunds because you did not receive confirmation.

CANCELLATION & REFUND POLICY

The Youth Program operates on a self-supporting budget based on tuition income. We are pleased to offer you a refund for your course provided you adhere to the following refund policy and process. We regret that there can be no exceptions to the following cancellation policy due to an individual's personal or professional circumstances. If the College cancels a course prior to the first class, registrants receive the entire tuition and fees refunded. Please allow 4 to 6 weeks for processing and mailing of your refund. No refund can be provided for cancellation/withdrawal by the student without written notification at least ten (10) business days prior to the start date of the course. Registrants canceling their enrollment in writing ten (10) or more business days in writing before the beginning of a course receive a full refund less a non-refundable registration fee of \$15. The written request should include: student ID number, home address, home telephone number, the course name and course number or CRN. Please fax your request to 908-725-2831 or mail it to RVCC, College Advancement, PO Box 3300, Somerville, New Jersey 08876 or email to youth@raritanval.edu. The College reserves the right to limit registrations, combine like courses and to cancel courses if enrollment is insufficient. If the College cancels a course we will contact you by either telephone or email. At that time, you may choose to register for another course or have your refund processed. All refunds are sent by mail to the student.

DISABILITY ACCOMMODATIONS

If your child has a disability and you have questions or want to request accommodations, please contact the Coordinator of Disabilities Services. The College provides services in accordance with federal legislative guidelines and RVCC Policies and Procedures. Reasonable accommodations are approved on a case-by-case basis. We request that documentation of disability and request for accommodations be presented at least three weeks prior to the beginning of classes.

We offer the option of providing some programs off site. In addition to the convenience of offsite programs, this option allows you the freedom to tailor any of our programs to your individual needs.
