____ Orchestra/Instrument: _____   (Violin, Viola, Cello, Double Bass)
____ Chorus

ELECTIVE CLASSES - All students will receive mandatory Health and Physical Education. In addition, they will be given a choice of electives. Please mark your choices with a **1-7** with 1 being your first choice. ***It is important to put a number next to each course (You may only choose one art course!).**
____ Innovation & Design: In this course, Science, Technology, Engineering and Mathematics (STEM) learning, innovative thinking, and creative problem solving are at the forefront of every class. Students will work collaboratively to design and build a scaled down version of medieval siege machine; as well as a structure that can withstand a simulated earthquake. They will be learning about and then applying steps of the Engineering and Design Process to all projects in this course

____ Financial Literacy: There are three major units in this project based course: income/careers/money management, credit/debt management, and investment/financial planning. Some of the major course activities are choosing your college, buying your first car, how you can budget your money effectively and a net based stock market simulation.

_____ General Music: Students will develop written and verbal skills to analyze music, as well as study different aspects of music through listening, composing, and performing.)

____ Studio Art II: Focuses upon a variety of traditional art mediums and skills in order to complete projects, which include a unique landscape drawing and a linocut – a form of printmaking.

CHOOSE ONE

_____ Communication Arts: Focuses upon ways we communicate through technology. Students will explore various graphic programs while learning additional computer & photographic skills.

_____ Coding (Computer Science) is fun, collaborative, and creative! This course will teach you about computer science, computational thinking, and programming. You will learn how to create programs which will be used to solve problems and develop interactive stories and games that can be shared with others.

_____ Current Events: This class gives students the opportunity to study local, state, federal, and global current events. Students will analyze videos, news articles, and political cartoons to understand perspective and bias. In addition, students will create newsletters and podcasts as major assessments of the class.
