Success is not measured by what a man accomplishes, but by the opposition he has encountered, and the courage with which he has maintained the struggle against overwhelming odds. - Charles Lindbergh

REFLECTIONS FROM THIS YEAR

COVID-19 continued to be a challenging force for the school district;

We set optimistic goals for the year in hopes that COVID-19 focus would begin to fade;

Protocols were continually being revisited as a result of the pandemic;

Contact tracing and quarantine remained for the year.

...yet we accomplished much!

DISTRICT GOALS

- + Inquisitive Learning: Create and establish an inquiry-based framework that values an interest-driven learning environment. Learners will, individually and collaboratively, focus on identifying, analyzing, and solving problems as inquisitive members of their community.
- + Partnerships: Establish partnerships that foster meaningful educational opportunities on local, regional, and global scales. Prepare all learners to become engaged and productive citizens through service to others, collaboration, and real-world connections.

DISTRICT GOALS

- + Social Awareness: Our learners will feel connected, valued, and secure in digital and non-digital learning environments cultivated by a shared sense of community. Every individual will develop skills that promote an awareness of self and others as well as the environment, including the ability to understand the impact of their decisions.
- + Communication: To enhance our school/district communications using multiple platforms, including our new website and social media.
