September 13, 2019

Dear Readington Community,

The Readington Township Public School District is excited to announce that we are going to embark on the strategic planning journey over the course of this school year. This letter outlines the process and timeline as the year gets underway.

Strategic planning will engage staff, students, parents, and community members in setting a vision for the future of the school district. It involves gathering information from constituents, reflecting on data, establishing a mission and vision, and developing goals. Our strategic goals will provide the focus for our success in the next three to five years. The District has contracted with Judith Wilson, LLC to assist in facilitating the planning process.

A survey will be sent out to the Readington community (including staff, administration, parents, and community members) for the purpose of gathering information about the district. The survey will be digital and a formal announcement will be made once the survey is posted. However, please expect it to be available on or about October 11. Your participation is welcomed and encouraged.

There will also be an opportunity to meet with Ms. Wilson at a community forum. The purpose of the forum will be for individuals and/or groups to have an opportunity to respond to specific prompts about the future of our children's learning and the strength of our schools. The ideas and recommendations from these forums will also fuel the goal-setting process. The forums will be held on October 24 in both the morning and evening to accommodate your schedules. Once again a reminder will be sent out to the Readington community to encourage participation in the forums.

We are hopeful you will join us in this journey of strategic planning, as we wish to gather input from all those who are invested in our schools. Should you have any questions, please contact Dr. Hart, the Superintendent, at 908-534-2897. Best wishes for a great school year!

Sincerely,

Laura Simon
President, Board of Education

Jonathan Hart, Ph.D.
Superintendent of Schools
