

Windows 8.1

➤ What do I need to know to navigate Windows 8.1?

Press the Windows 8 Start Button Page will get you to the Applications Start Page

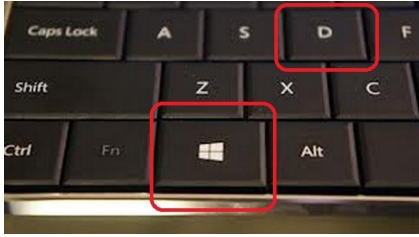

From the Start Page swipe up/down or left/right on the screen to select (tap) any application you would like to open.

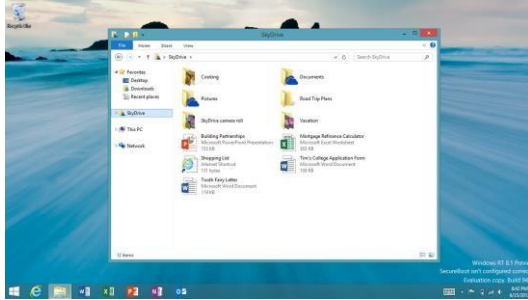

Pressing the Desktop Title

Or Press Windows Start Button + D Key

Will get you to the Windows “Classic” Desktop. This will be where most of the applications you will be using (Google Chrome, Word, PowerPoint, etc.) and are most familiar will reside.
