

3211 CODE OF ETHICS

The Board of Education endorses the code of ethics for professional educators published by the National Education Association.

Preamble

The educator, believing in the worth and dignity of each human being, recognizes the supreme importance of the pursuit of truth, devotion to excellence, and the nature of democratic principles. Essential to these goals is the protection of freedom to learn and to teach and the guarantee of equal educational opportunity for all. The educator accepts the responsibility to adhere to the highest ethical standards.

The educator recognizes the magnitude of the responsibility inherent in the teaching process. The desire for the respect and confidence of one's colleagues, of pupils, of parent(s) or legal guardian(s), and of the members of the community provides the incentive to attain and maintain the highest possible degree of ethical conduct. The Code of Ethics of the Education Profession indicates the aspiration of all educators and provides standards by which to judge conduct.

The Building Principal will maintain a simple log of incidents involving staff violations of the Code of Ethics. The log will contain information pertaining to the date of the incident, the type of violation, the individual(s) involved in the incident, identification of the person who reported the incident, and whether or not remedial measures were taken as a result of the incident. All violations reported to a staff member, Building Principal, or the District Superintendent by a parent or guardian must be recorded in the log. Access to the log will be restricted to involved teacher(s) or their RTEA representative, Building Principals, the District Superintendent, and individuals authorized in writing by the Superintendent to access the log.

The remedies specified by the NEA and/or its affiliates for the violation of any provision of this Code shall be exclusive and no such provision shall be enforceable in any form other than one specifically designated by the NEA or its affiliates.

Principle I -- Commitment to the Pupil

The educator strives to help each pupil realize his/her potential as a worthy and effective member of society. The educator therefore works to stimulate the spirit of inquiry, the acquisition of knowledge and understanding, and the thoughtful formulation of worthy goals.

In fulfillment of the obligation to the pupil, the educator--

1. Shall not unreasonably restrain the pupil from independent action in the pursuit of learning.
2. Shall not unreasonably deny the pupil access to varying points of view.
3. Shall not deliberately suppress or distort subject matter relevant to the pupil's progress.
4. Shall make reasonable effort to protect the pupil from conditions harmful to learning or to health and safety.
5. Shall not intentionally expose the pupil to embarrassment or disparagement.
6. Shall not on the basis of race, color, creed, sex, national origin, marital status, political or religious beliefs, family, social or cultural background, or sexual orientation, unfairly--
 - a. Exclude any pupil from participation in any program
 - b. Deny benefits to any pupil
 - c. Grant any advantage to any pupil
7. Shall not use professional relationships with pupils for private advantage.
8. Shall not disclose information about pupils obtained in the course of professional service, unless disclosure serves a compelling professional purpose or is required by law.

Principle II -- Commitment to the Profession

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professional service.

In the belief that the quality of the services of the education profession directly influences the nation and its citizens, the educator shall exert every effort to raise professional standards to promote a climate that encourages the exercise of professional judgment, to achieve conditions which attract persons worthy of the trust to careers in education, and to assist in preventing the practice of the profession by unqualified persons.

CODE OF ETHICS

In fulfillment of the obligation to the profession, the educator--

1. Shall not in an application for a professional position deliberately make a false statement or fail to disclose a material fact related to competency and qualifications.
2. Shall not misrepresent his/her professional qualifications.
3. Shall not assist entry into the profession of a person known to be unqualified in respect to character, education, or other relevant attribute.
4. Shall not knowingly make a false statement concerning the qualifications of a candidate for a professional position.
5. Shall not assist a non-educator in the unauthorized practice of teaching.
6. Shall not disclose information about colleagues obtained in the course of professional service unless disclosure serves a compelling professional purpose or is required by law.
7. Shall not knowingly make false or malicious statements about a colleague.
8. Shall not accept any gratuity, gift, or favor that might impair or appear to influence professional decisions or actions.

STUDENT DISCIPLINE/CODE OF CONDUCT (M)

5600 STUDENT DISCIPLINE/CODE OF CONDUCT

The Board of Education adopts this Student Discipline/Code of Conduct Policy to establish standards, policies, and procedures for positive student development and student behavioral expectations on school grounds and, as appropriate, for conduct away from school grounds. Every student enrolled in this district shall observe promulgated rules and regulations and the discipline imposed for infraction of those rules.

The Superintendent of Schools will establish a process for the annual review and update of the district's Student Discipline/Code of Conduct Policy and Regulation that may involve a committee of parents, students, and community members that represent, where possible, the composition of the district's schools and community. The Superintendent will report to the Board the process used for the annual review of this Policy and Regulation and will recommend to the Board updates, if any, to the Student Discipline/Code of Conduct Policy and Regulation.

The Student Discipline/Code of Conduct Policy and Regulation shall be disseminated annually to all school staff, students, and parents. The Board of Education shall provide to all employees annual training on the Student Discipline/Code of Conduct Policy and Regulation, which shall include training on the prevention, intervention, and remediation of student conduct that violates the district's Policy and Regulation. Information on the Student Discipline/Code of Conduct Policy and Regulation shall be incorporated into the orientation for new employees.

The Board provides for the district's Student Discipline/Code of Conduct's equitable application. Student discipline and the Code of Student Conduct will be applied without regard to race; color; religion; ancestry; national origin; nationality; sex; gender; sexual orientation; gender identity or expression; marital, domestic-partnership, or civil union; mental, physical or sensory disability; or by any other distinguishing characteristic, pursuant to N.J.S.A. 10:5.-1 et seq.

For students with disabilities, subject to Individualized Education Programs in accordance with 20 U.S.C. §1400 et seq., the Individuals with Disabilities Education Improvement Act and accommodation plans under 29 U.S.C. §§ 794 and 705(20), the Code of Student Conduct shall be implemented in accordance with the components of the applicable plans.

The Student Discipline/Code of Conduct is established for the purposes outlined in N.J.A.C. 6A:16-7.1(b).

Policy and Regulation 5600 include a description of student responsibilities that include expectations for academic achievement, behavior, and attendance, pursuant to N.J.A.C. 6A:32-8 and 13.1; a description of behaviors that will result in suspension or expulsion, pursuant to

STUDENT DISCIPLINE/CODE OF CONDUCT (M)

N.J.S.A. 18A:37-2; and a description of student rights pursuant to N.J.A.C. 6A:16-7.1(c)3.i through vii.

The Board of Education approves the use of comprehensive behavioral supports that promote positive student development and the students' abilities to fulfill the behavioral expectations established by the Board. These behavioral supports include, but are not limited to, positive reinforcement for good conduct and academic success including the programs that honor and reward student conduct and academic achievement; supportive intervention and referral services including those services outlined in Policy 2417; remediation of problem behaviors that take into account the behavior's nature, the students' developmental ages and the students' histories of problem behaviors and performance; and for students with disabilities, the behavior interventions and supports shall be determined and provided pursuant to N.J.A.C. 6A:14.

Policy and Regulation 5600 include a description of school responses to violations of behavioral expectations established by the Board that, at a minimum, are graded according to the severity of the offenses, and consider the developmental ages of the student offenders and their histories of inappropriate behaviors pursuant to N.J.A.C. 6A:16-7.1(c)5.

Students are required to be in compliance with Policy and Regulation 5200 – Attendance pursuant to N.J.A.C. 6A:16-7.6 and Policy and Regulation 5512 – Harassment, Intimidation, and Bullying pursuant to N.J.A.C. 6A:16-7.7.

The Building Principal shall maintain a current list of community-based health and social service provider agencies available to support a student and the student's family, as appropriate, and a list of legal resources available to serve the community.

The Building Principal shall cause to be maintained a simple log of incidents involving student violations of the Code of Conduct. The log will contain information pertaining to the date of the incident, the type of violation, the student(s) involved in the incident, identification of the person who reported the incident, and whether or not remedial measures were taken as a result of the incident. All violations reported to a teacher, Building Principal, or the District Superintendent by a parent or guardian must be recorded in the log. Access to the log will be restricted to teachers, school counselors, Building Principals or designees, the District Superintendent, and individuals authorized in writing by the Superintendent to access the log.

The Building Principal or designee shall have the authority to assign discipline to students. School authorities also have the right to impose a consequence on a student for conduct away from school grounds that is consistent with the district's Code of Student Conduct pursuant to N.J.A.C. 6A:16-7.5. This authority shall be exercised only when it is reasonably necessary for the student's physical or emotional safety, security, and well-being or for reasons relating to the safety, security, and well-being of other students, staff, or school grounds, pursuant to N.J.S.A.

STUDENT DISCIPLINE/CODE OF CONDUCT (M)

18A:25-2 and 18A:37-2. This authority shall be exercised only when the conduct that is the subject of the proposed consequence materially and substantially interferes with the requirements of appropriate discipline in the operation of the school. Consequences pursuant to N.J.A.C. 6A:16-7.5 shall be handled in accordance with Policy and Regulation 5600, pursuant to N.J.A.C. 6A:16-7.1, and as appropriate, in accordance with N.J.A.C. 6A:16-7-2, 6A:16-7.3, or 6A:16-7.4. School authorities shall respond to harassment, intimidation, or bullying that occurs off school grounds, pursuant to N.J.S.A. 18A:37-14 and 15.3 and N.J.A.C. 6A:16-1.3, 7.1, and 7.7.

Consequences and appropriate remedial action for a student who commits one or more acts of harassment, intimidation, or bullying may range from positive behavioral interventions up to and including suspension or expulsion. The factors for determining consequences and remedial measures and examples of consequences and remedial measures are listed in Policy 5512 – Harassment, Intimidation, and Bullying. Consequences for a student who commits an act of harassment, intimidation, or bullying shall be varied and graded according to the nature of the behavior, the developmental age of the student and the student's history of problem behaviors and performance, and shall be consistent with this Policy and the school district's Student Discipline/Code of Conduct Policy pursuant to N.J.A.C. 6A:16-7.1. Remedial measures for one or more acts of harassment, intimidation, or bullying shall be designed to correct the problem behavior; prevent another occurrence of the problem; protect and provide support for the victim of the act; and take corrective action for documented systemic problems related to harassment, intimidation, or bullying.

Consequences and remedial measures to address acts or incidents of dating violence at school shall be consistent with the school district's Student Discipline/Code of Conduct Policy. The factors for determining consequences and remedial measures and examples of consequences and remedial measures are included in Policy and Regulation 5519 – Dating Violence at School and shall be used to address the act or incident as well as serve as remediation, intervention, education, and prevention for all individuals involved. The responses shall be tiered with consideration given to the seriousness and the number of previous occurrences of acts or incidents in which both the victim and aggressor have been involved. Consequences for acts or incidents of dating violence at school may range from admonishment to suspension or expulsion. Retaliation towards the victim of any act or incident of dating violence shall be considered when administering consequences to the aggressor based on the severity of the act or incident. Remedial measures/interventions for acts or incidents of dating violence at school may include, but are not limited to: parent conferences, student counseling (all students involved in the act or incident), peer support groups, corrective instruction or other relevant learning or service experiences, supportive student interventions (Intervention and Referral Services - I&RS), behavioral management plans, and/or alternative placements.

POLICY

READINGTON TOWNSHIP BOARD OF EDUCATION

STUDENT DISCIPLINE/CODE OF CONDUCT (M)

Any student to be disciplined shall be provided the due process procedures for students and their families as set forth in Policy and Regulation 5600 and N.J.A.C. 6A:16-7.2 through 7.4.

In accordance with the provisions of N.J.A.C. 6A:16-7.8, when a student transfers to a public school district from another public school district, all information in the student's record related to disciplinary actions taken against the student by the school district and any information the school district has obtained pursuant to N.J.S.A. 2A:4A-60, Disclosure of Juvenile Information, Penalties for Disclosure, shall be provided to the receiving public school district, in accordance with the provisions of N.J.S.A. 18A:36-19(a) and N.J.A.C. 6A:32-7.5.

The Superintendent may be required to submit a report annually to the New Jersey Department of Education on student conduct, including all student suspensions and expulsions, and the implementation of the Student Discipline/Code of Conduct Policy in accordance with the format prescribed by the Commissioner of Education. The Superintendent shall report to the Commissioner of Education each incident of violence, including harassment, intimidation, and bullying, vandalism, and alcohol and other drug offenses, pursuant to N.J.A.C. 6A:16-4.3, in the school district utilizing the Electronic Violence and Vandalism Reporting System, pursuant to N.J.A.C. 6A:16-5.3.

School Closing

7130 SCHOOL CLOSING

The Board of Education recognizes its responsibility to provide a thorough and efficient program of free public education and appropriate facilities to house that program. The Board further recognizes that declining enrollments, diminished resources, district reorganization, and/or other good cause may require the use of one or more district facilities for educational purposes be abandoned.

To receive approval for the closing of a school the Board shall provide the Division of Administration and Finance (Division) and the Executive County Superintendent with the following assurances:

1. The proposed closing is consistent with the district's approved LRFP because:
 - a. The school district has demonstrated that sufficient school building capacity exists to house students for the five years following the closing; or
 - b. The school district has demonstrated through a feasibility study that the benefits of undertaking new construction outweigh those of rehabilitating the school proposed for closure.
2. The use of temporary facilities in the remaining schools does not result or increase from an overall facilities shortage caused by the school closing; and
3. The re-assignment of students to other schools in the district does not produce, sustain nor contribute to unlawful segregation, separation, or isolation of student populations on the basis of race or national origin.

A request for approval from the Division for the school closing shall include the recommendation of the Executive County Superintendent. A letter of approval from the Division based on the information in N.J.A.C. 6A:26-7.5(a) and as listed above shall be required before the school's closing.

Adopted:

7461 DISTRICT SUSTAINABILITY POLICY

Sustainability is defined as meeting the needs of the present without compromising the ability of future generations to meet their own needs. It considers the interrelationship of economic, social, and environmental factors that protect and enhance present and future quality of life.

The Board of Education desires to conduct its operations and make decisions with identified sustainability priorities that include at a minimum: protecting students, staff, and community from environmental harm; preparing students for the future by educating for sustainability (knowledge of concepts and practices of environmental, social, and economic responsibility and sustainability); and include an intent to preserve current and future resources.

The Board believes by incorporating sustainable practices into school policies and operations it can make an immediate impact on student health, academic performance, and teacher retention while decreasing operational costs and demands on natural resources.

The Superintendent of Schools will establish a School District Sustainability Committee to provide the Superintendent and the Board with information on the benefits of increased sustainability practices within the school district.

The Board wants to protect students, staff, school visitors, and community members from environmental harm and will strive to eliminate the use of potentially toxic and harmful substances; prepare students for the future by providing a high-quality education that support concepts and practices of environmental, social, and economic responsibility and sustainability; and preserving current and future resources by adopting practices in operations that balance environmental, social, and fiscal responsibility to protect and enhance the future quality of life.

The Board of Education authorizes the following sustainability practices to be implemented within the schools of the district:

Professional Development for Sustainability

Quality professional development of staff and Board members facilitates the effective transition to sustainability planning and practices for schools and school districts. Enhancing the knowledge of school personnel about the benefits and requirements of sustainability practices in a school setting increases the likelihood of a successful integration of sustainability into the school district's operations and promotes shared ownership of the outcomes.

The Board of Education will provide a minimum of two hours of time for professional development on sustainability topics to at least five members of the school district staff and/or members of the School District Sustainability Committee to include, but not be limited to,

school Board members, district administrative staff members, teaching staff members, and support staff members.

The professional development for sustainability will provide a general understanding of the benefits of sustainable schools as well as specific information and guidance on undertaking some aspect of sustainability practices from planning to operations. The School District Sustainability Committee, Board members, district administrators, and other school staff members will work together to identify Board members and staff members that would benefit from training on sustainability topics. Training needs will be determined based on plans to maintain, implement, or expand sustainable practices in the school district.

Once the training needs have been identified, various professional development offerings will be reviewed and evaluated to determine the learning concepts that will be included, the educational methods that will be incorporated, and the professional skills that will be imparted. Professional development that incorporates sustainability concepts across subject areas in the teaching curriculum will be a key consideration, as educating for sustainability lays the foundation for sustainable thinking and practice among students, staff, and the broader community.

The school district may choose to train multiple staff members on a particular sustainability topic, either by hosting the training internally or by sending a group to an external training event such as a professional association meeting. Outside experts or internal staff with expertise in sustainability may also be utilized to provide the training. The training hours may also be completed through webinars, online courses, or workshops. Individual staff members or Board members may be trained in different sustainability topics as relevant to their official role in the school district.

The school district will maintain sustainability training documentation that identifies the names and position of the individuals receiving training (groups of five individuals are recommended), along with the following course information: date, instructor or course provider, course description or syllabus, and course length. Course training times exclude time for breaks and meals from the two-hour training requirement. The two hour training requirement does not have to be completed at a single event. For example, two one-hour training sessions or three forty-five minute sessions would meet the time requirement. The training hours must have occurred in the twenty-four months prior to submission for Sustainable Jersey for Schools certification, if such certification is desired.

Qualifying training includes courses or workshops on a topic related to sustainability in schools, from leadership, planning, policy, and curriculum development to teaching, enrichment, food service, transportation, and facilities management.

Green Purchasing Policy

Green purchasing, also known as Environmentally Preferable Purchasing (EPP), is the coordinated purchasing of goods and services to minimize impacts on human health and the natural environment. Alternatives exist for many products used by schools that are less hazardous, save energy and water, and reduce waste.

A simple first step will be for the school district to purchase as many products as possible made from recycled content that are themselves recyclable. Green purchasing moves beyond recycled materials and also takes into consideration the raw materials, including energy and water, used to manufacture products; the production process itself; the packaging and distribution method; and the distance of transport and proximity of production.

The School Business Administrator/Board Secretary or designee will provide an outline of the standards and procedures for selecting products based on environmental criteria. The specific standards and guidelines for selecting products will be based on established environmental criteria, as well as promote the adoption of this Policy to district staff members. The district will attempt to purchase, in accordance with the provisions of applicable purchasing laws: green cleaning supplies; green cleaning equipment; recycled paper; energy efficient appliances; and/or equipment purchases and green cleaning training.

Classroom Chemical Purchase, Storage, and Disposal Policy

The Board of Education requires outdated chemicals used in the school district as part of the school district's Chemical Hygiene Plan are routinely removed from school grounds and future purchases will attempt to curtail or eliminate storage of unneeded chemicals. The School Business Administrator/Board Secretary will coordinate a lab clean-out and clean-out of outdated and unneeded chemicals every eighteen months.

Classroom chemical purchase, storage, and disposal will be in accordance with Board of Education Policy 7420 – Hygienic Management and Regulation 7420.2 – Chemical Hygiene that is in accordance with Federal and State law.

Green Cleaning Policy and Plan

A well-designed Green Cleaning Program developed by the School Business Administrator/Board Secretary or designee will be designed to reduce harmful chemical exposure and yield positive benefits for students, custodial staff, administrators, teachers, and the environment by protecting the environment; providing a healthy learning and work environment; increasing the lifespan of facilities; and protecting the health of custodial, maintenance, and building staff.

This Policy incorporates recommendations from the district's Green Cleaning Plan which will commit to procuring and using green cleaning products and green equipment, support training for custodial and maintenance staff, and describe efforts to evaluate and monitor progress. This Green Cleaning Policy will be shared with the administration, school staff members, and the broader school community. Before adopting this Green Cleaning Policy, the district will develop a Green Cleaning Plan or Green Cleaning Action Plan that will inform the Policy and support an effective program.

The school district's Green Cleaning Program will incorporate green cleaning products and equipment as well as staff training; engage parents, students, and school organizations in the program implementation; and follow a comprehensive plan that articulates strategies for key building areas including classrooms, kitchens, gymnasiums, offices, and entry systems. In addition to the use of Green Cleaning products, the district's Green Cleaning Program will incorporate technologies like microfiber cloths to reduce the use of cleaning chemicals and HEPA-filtered vacuum cleaners to promote healthy indoor air quality.

The School Business Administrator/Board Secretary or designee will establish a District Green Cleaning workgroup that includes administrators, facility manager, custodial and maintenance staff, teachers, school nurses, support staff, parents, and Green Team members, as well as other individuals interested in Green Cleaning to familiarize the team with Green Cleaning Program components, including Green Cleaning supplies and equipment, as well as the relationship to indoor air quality, chemical exposure, and cost-saving opportunities.

The development of the district's Green Cleaning Plan or Green Cleaning Action Plan will consider the following steps:

1. Complete building cleaning assessments by collecting facility and occupant information, and historical program strengths or weaknesses.
2. Create an inventory of custodial cleaning products and mechanical and non-mechanical equipment, and determine if they meet Green Cleaning standards.
3. Assess staff training and identify training needs and program resources available to support training. Determine how existing policies and procedures can be modified to utilize the wide range of Green Cleaning techniques and concurrently meet accepted levels of clean for specific areas of the facility.
4. Develop a plan with goals and strategies for cleaning procedures, Green Cleaning supplies, Green Cleaning equipment, and building facility enhancements (like expanded use and maintenance of walk-off mats at entrances). Benchmarks to

DISTRICT SUSTAINABILITY POLICY

guide the transition to Green Cleaning are critical due to training, product sourcing, and purchasing and staffing considerations.

5. Identify the Green Cleaning standards that will be used to purchase Green Cleaning equipment, non-mechanical equipment, and Green Cleaning custodial supplies. Possible standards include, but are not limited to:
 - a. Carpet and Rug Institute, Green Vacuum Cleaner Standards.
 - b. ISSA, Construction Industry Management Standard for Green Buildings that supports Leadership in Energy and Environmental Design (LEED) certification.
 - c. EcoLogo Certified products, services and packaging are certified for reduced environmental impact. ECOLOGO Certifications are voluntary, multi-attribute, lifecycle based environmental certifications that indicate a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.
 - d. Environmental Protection Agency's (EPA's) Safer Choice label helps consumers, businesses, and institutional buyers identify cleaning products and others that perform well and are safer for human health and the environment.
 - e. Green Seal standard provides sustainability standards for products, services, and companies based on life-cycle research. Green Seal standards provide criteria and guidelines for manufacturers, service providers, and companies to work toward sustainability. Green Seal has 31 issued standards that cover over 375 product and service categories. Examples of Cleaning Products and Services include the GS-42 Commercial and Institutional Cleaning Services, GS-34 Cleaning and Degreasing Agents, GS-37 Green Cleaning Services, GS-40 Floor-Care Products for Industrial and Institutional Use, and GS-41 Hand Cleaners for Industrial and Institutional Use.
 - f. U.S. Green Building Council's Leadership in Energy & Environmental Design-Existing Buildings criteria; or ISSA Cleaning Industry Management Standard for Green Buildings.

DISTRICT SUSTAINABILITY POLICY

- g. Other standards that meet or exceed those listed above are also acceptable.
- 6. Green Cleaning Action plans may also incorporate implementation timeframes and program-monitoring requirements.

Disposal of Electronic Waste

Inappropriate handling and disposal of electronic equipment (e.g., computers, monitors, printers, servers, phone systems, etc.) can cause the release of toxic chemicals into the workplace and environment resulting in the exposure of workers and adjacent human and wildlife populations.

Electronic equipment within the district is routinely removed as either non-functional or outdated. The School Business Administrator/Board Secretary shall give preference to vendors who will reuse/refurbish such equipment. If such equipment will be disposed, contractual preference shall be given to vendors certified to R2:2013 – The Responsible Standard for Electronic Recyclers (R2) (or most current revision thereof). This standard specifies environmental, health and safety procedures for certified facilities that directly benefit workers, the communities in which they operate and the environment.

Long-Range Facilities Planning for Sustainability

The district is comprised of buildings as old as 100 years. Major system components such as boilers have a service life on the order of decades, as does a facility such as a cafeteria. Whenever upgrading or retrofitting the physical plants of buildings, the district's sustainability goals should be considered and implemented as feasible.

While emergency repairs may require the direct replacement of a failed component, planned upgrades at the end of service life should incorporate a more holistic systems-level analysis for opportunities to achieve sustainability goals. As examples, when there is a need to replace boilers in a building, the entire HVAC system should be evaluated for possible redesign and replacement to maximize efficiency and comfort. When retrofitting a cafeteria, look for ways to employ equipment that will help reduce the need for disposables, and minimize the generation of landfill waste.

The School District Sustainability Committee (the formation of which is mandated above) will develop a list of potential projects to be incorporated into the district's Long-Range Facilities Plan for consideration in that appropriate context.

Waste Reduction Policy

It shall be the policy of the district to identify activities that generate unnecessary waste, to evaluate practices which will result in waste reduction and implement those that do not interfere with the educational and operational mission of the district.

As examples, paper usage and waste can be reduced by: relying upon electronic communications; limiting printing of those communications; default double-sided printing of documents; printing short memos or documents twice on one sheet to be cut and distributed as a ½ sheet; limiting the use of envelopes and binders for non-confidential communications.

Vendors may be required to deliver bulk items in returnable packaging or, in the case of furniture, moving blankets.

Promoting Physical Activity

In addition to high-quality physical education classes in the school district taught by certified and well-supported physical education teachers, multiple opportunities exist before, during, and after school to enable young people to achieve the U.S. Department of Health and Human Services' recommended sixty minutes of physical activity per day. They include: recess, physical activity breaks, before and after school programs, and the use of school facilities outside school hours.

The Healthy, Hunger-Free Kids Act of 2010 requires every school district that participates in Federal school meals programs to have a local school Wellness Policy that includes goals for physical activity. The Board of Education has adopted Policy 8505 – Local Wellness Policy/Nutrient Standards for Meals and Other Foods to meet this requirement. The Board of Education promotes a comprehensive school-based physical activity program in accordance with Board policy that will permit students to safely walk to and from school, to ride bicycles to and from school, and some of the activities and programs listed below to promote physical activities:

1. Recess: The district will provide a recess period on most school days for Kindergarten through fifth grade students;
2. Physical Activity Breaks: Teachers may periodically conduct three to five minute "physical activity breaks" or "brain energizers" and incorporate physical activity into academic lessons to help improve student performance and on-task behavior;

3. Before and After School Programs: Elementary and Middle Schools in the district will attempt to offer a minimum of two types of extracurricular programs that provide students with opportunities for physical activity beyond school hours. A high school will offer additional extracurricular programs that provide students with opportunities for physical activity beyond school hours;
4. If the district offers a before and/or after school student care program for children, either directly or through a contractor, such programs shall incorporate physical activity as a component of the daily schedule;
5. Intramural sports, which are organized sports that often emphasize fun as well as competition and involve students from the school of all skill levels who may not want to participate in an interscholastic sport;
6. Physical activity clubs that allow students to pursue specific interests or explore new activities;
7. Use of School Facilities Outside School Hours: The district may, in accordance with Board Policy, allow for the joint use of school facilities by community recreation programs offered by municipal or parks and recreation commissions, outside agencies, and/or youth-serving organizations on evenings, weekends, and during breaks in the school calendar.

Safe Routes to School

Safe Routes to School is a nationwide movement aimed at encouraging elementary and middle school students to walk or bicycle to school. The goal of New Jersey's Safe Routes to School initiative is to get children walking and bicycling to school where it is safe and to make it safe where it is not safe. In support of this initiative, the Board has adopted Policy 8505 – Local Wellness Policy/Nutrient Standards for Meals and Other Foods, Policy 8600 – Transportation, and Policy 5514 – Student Use of Vehicles. The Board of Education and the administration will collaborate with municipal, county or State transportation, land-use planning, law enforcement, and other agencies to plan, construct, and encourage the use of safe, accessible, and convenient pedestrian and bicycle routes to and from school.

The Board recognizes the benefits of students walking or riding a bicycle to school on a safe route. Understanding there may not be a safe walking or biking route to and from school for every student, this physical activity for a student is both mentally and physically beneficial.

POLICY

READINGTON TOWNSHIP BOARD OF EDUCATION

Property
7461/Page 9 of 9
DISTRICT SUSTAINABILITY POLICY

Students walking and riding a bicycle to school will be required to comply with Board policies, all safety and school rules, and regulations. A list of conditions explaining the rules and expectations of the student and parent will be provided by the Principal or designee.

The Board of Education will post this Policy on the school district website along with samples of the district's outreach activities to staff, students, and parents notifying them of the Policy adoption. Outreach activities/materials will include district newsletter articles, email blasts, presentations/announcements at Board of Education or district-wide staff meetings, and other public events.
