6115.03 FEDERAL AWARDS/FUNDS INTERNAL CONTROLS – CONFLICT OF INTEREST

The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (UGG), 2 CFR §200.318 – General Procurement Standards addresses standards of conduct covering conflict of interest and governs the actions of school district employees, officers, and agents in the selection, award, and administration of contracts supported by a Federal award.

The Board of Education must use its own documented procurement procedures which reflect applicable State and local laws and regulations, provided that the procurements conform to the applicable Federal law and the standards identified in 2 CFR §200.

The Board of Education must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

The Board of Education must maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award, and administration of contracts supported by a Federal award.

1. No employee, officer, or agent of the Board of Education may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest.
 - a. Such a conflict of interest would arise when a Board of Education employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest

in or a tangible personal benefit from a firm considered for a contract.

2. The Board of Education officers, employees, and agents must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts.
3. However, a Board of Education may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value.
4. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the non-Federal entity.

The Board of Education's procedures must avoid acquisition of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

To foster greater economy and efficiency, and in accordance with efforts to promote cost-effective use of shared services across the Federal government, the Board of Education is encouraged to enter into State and local intergovernmental agreements or inter-entity agreements where appropriate for procurement of use of common or shared goods and services.

The Board of Education is encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

The Board of Education is encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative

POLICY GUIDE

analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

The Board of Education must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources. (See also 2 CFR §200.213 – Suspension and Debarment).

The Board of Education must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

The Board of Education may use a time and materials type contract only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to a Board of Education is the sum of:

1. The actual cost of materials; and
2. Direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since the time and material formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk. Further, the Board of Education awarding such a contract must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

The Board of Education alone must be responsible, in accordance with good administrative practice and sound business judgement, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the Board of Education of any contractual

POLICY GUIDE

responsibilities under its contracts. The Federal awarding agency will not substitute its judgement for that of the Board of Education unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

The Board of Education and its employees shall be required to comply with all New Jersey statutes and administrative codes regarding school ethics and internal controls.

~~_____~~ The Board of Education does not permit a student in the school district to charge for breakfast or lunch.

X The Board of Education shall establish a meal charge program to permit students in the district to charge for breakfast or lunch. Collection of any payment for a meal charge program account that is in arrears shall be addressed in accordance with provisions of this Policy.]

The Board of Education recognizes a student may forget to bring breakfast or lunch (meal), as applicable, or money to purchase a meal to school on a school day. In this circumstance, the food service program will provide the student a meal and will inform the Principal or designee. The Principal or designee will contact the student's parent to provide notice of an outstanding meal bill and will provide the parent with a period of ten school days to pay the amount due. If the student's parent has not made full payment by the end of the ten school days, the Principal or designee shall again contact the parent with a second notice informing the parent of any action to be taken by the school district in response to a student's school breakfast or school lunch bill being in arrears. Such action may include denying the student school breakfast or lunch. A school district shall report at least biannually to the New Jersey Department of Agriculture the number of students who are denied school breakfast or school lunch in accordance with N.J.S.A. 18A:33-21a. and this Policy.

The school district shall not:

1. Publicly identify or stigmatize a student who cannot pay for a meal or whose school meal bill is in arrears. (For example, by requiring

the student to sit at a separate table or wear a wristband, hand stamp, or identifying mark or by serving the student an alternative meal);

2. Require a student who cannot pay for a school meal or whose school meal bill is in arrears to do chores or other work to pay for the school meal; or
3. Require a student to discard a school meal after it has been served because of the student's inability to pay for a school meal or because money is owed for previously provided meals.

If a student owes money for the equivalent of five or more school meals at any time during the school year, the Principal or designee shall:

1. Determine if the student is eligible for a free or reduced-price school meal;
2. Make at least two attempts, not including the application or instructions provided to the parent each school year pursuant to N.J.S.A. 18A:33-21b.; to contact the student's parent and have the parent fill out an application for the school lunch program and school breakfast program; and
3. Contact the student's parent to offer assistance with the application for the school lunch and school breakfast program; determine if there are other issues within the household that have caused the child to have insufficient funds to purchase a school breakfast or school lunch; and offer any other appropriate assistance.

The school district shall direct communications about a student's school meal bill being in arrears to the parent and not the student. The school district's contact with the parent may be via email or telephone call. Nothing in N.J.S.A. 18A:33-21 shall prohibit the school district from sending a student home with a letter addressed to a parent.

POLICY GUIDE

If the student's meal bill is in arrears, but the student has the money to purchase a meal on a subsequent school day, the student will be provided a meal with payment and the food service program will not use the student's payment to repay previously unpaid charges if the student intended to use the money to purchase that school day's meal.

A parent who has received a second notice their child's meal bill is in arrears and who has not made payment in full within one week from the date of the second notice will be requested to meet with the Principal or designee to discuss and resolve the matter.

A parent's refusal to meet with the Principal or designee or take other steps to resolve the matter may be indicative of more serious issues in the family or household. However, when a parent's routine failure to provide breakfast or lunch is reasonably suspected to be indicative of child abuse or neglect, the Principal or designee shall immediately report such suspicion to the Department of Children and Families, Division of Child Protection and Permanency as required in N.J.S.A. 9:6-8.10. Such reporting shall not be delayed to accommodate a parent's meeting with the Principal or designee.

Students receiving free meals will not be denied a meal even if they accrued a negative balance from other purchases in the cafeteria.

In accordance with N.J.S.A 18A:33-21b., at the beginning of each school year, and upon initial enrollment in the case of a student enrolling during the school year, the school district shall provide to the parent of each student:

1. Information on the National School Lunch Program and the Federal School Breakfast Program;
2. An application to apply for the school lunch and school breakfast programs and instructions for completing the application; and

3. Information on the rights of students and their families under N.J.S.A. 18A:22-21 et seq.

The school district's liaison for the education of homeless children shall coordinate with school district personnel to ensure that a homeless student receives free school meals and is monitored according to the school district policies pursuant to N.J.S.A. 18A:33-21c.
